-----Original Message-----

From: United Airlines, Inc.
To: Jared Blumenfeld
Subject: Flight delay - UA417 departing LAS
Sent: May 23, 2013 5:00 PM

Confirmation number: GV5YCP

United flight UA417 on May 23 is delayed due to late-arriving aircraft.
Now departs: 8:00 p.m. on May 23 from gate D54, Las Vegas, NV (LAS)
Now arrives: 9:38 p.m. on May 23 at San Francisco, CA (SFO)

Please be at the gate for boarding prior to the original scheduled departure time of 6:00 p.m., as the departure time could be revised again.

Information is subject to change. For up-to-the-minute flight status information, go to united.com, use the United mobile app or check flight information screens at the airport.

From: Matthew Anderson <manderson@roku.com>
Sent: Sunday, November 17, 2013 9:35:14 PM
To: Blumenfeld, Jared; jaredblumenfeld@comcast.net
Subject: Matthew Short Bio

Matthew is Chief Marketing Officer of Roku, America's favorite way of streaming online video and music to televisions. He is also Senior Advisor to 21st Century Fox and a board member of emerging-markets broadcaster MOBY Group and Tour Racing Ltd., owner of Team Sky, back-to-back winner of the Tour de France. Previously, he was Group Director, Strategy and Corporate Affairs, Europe and Asia, of News Corporation and Group Director, Communications and Brand Marketing, of British Sky Broadcasting Plc (Sky). He designed and oversaw Sky's "Bigger Picture" program when it became the

world's first carbon neutral media company, was named Britain's Most Admired Company by Management Today and was recognized by the Dow Jones Sustainability Index and FTSE for Good. The World Economic Forum selected Matthew for its Forum of Young Global Leaders, where he has been active on environmental and climate-related initiatives, including writing a book on how environmental strategies can help consumer brands take market share. Matthew holds a BA from the University of Pennsylvania and has attended the University of California, Berkeley and Harvard's Global Leadership and Public Policy Program.

From: Ebbert, Laura
To: RYERSON, NANCY (TEDDY); HELLER, ZOE; Gaudario, Abigail
Subject: Fw: Summit Lake Paiute Tribe - Request to meet with Jared
Date: Tuesday, January 08, 2013 3:48:10 PM

Teddy, Zoe:

Outside of, or perhaps in parallel to, an existing appeal filed by Summit Lake Paiute Tribe, the Tribe submitted an appeal to Jared in December, and are inquiring about a face-to-face meeting with him next week. I don't know if you'd like to decline for him, since that would then put Aaron in direct contact with you for a reschedule, if Jared would like to entertain a meeting with them.

We were going to brief Jared on the approach to responding to the two conflicting appeals filed by the Tribe next Tuesday, when he'll now be in San Diego (and the same day as this request)...Abi can fit that briefing in the week following, so perhaps suggesting a reschedule to follow in early Feb would work.

If you'd rather I decline for you, please let me know!

I hadn't heard back from ORA on whether you were going to decline Aaron's request so that he'd be in touch with you directly for a reschedule. Did you need me to send the decline?

Hi Aaron -

I hope you had a good New Year's!

I am in receipt of the letter and agree it would make sense to have a

meeting with the Chair. Please can you work with Laura Ebbert to set up a

time that works for all. We can also do a call if in-person is tough to

organize.

Best, Jared

Importance: High

Here's the puff instruction for connecting

From: OEI - from Renee Wynn [mailto:Mass_Mailer@epa.gov]
Sent: Thursday, August 01, 2013 1:52 PM
To: All Users of EPA Email
Subject: Update on Remote Access Issues
Importance: High

I'd like to take this opportunity to make you aware of the two ways in which you can access EPA's network remotely, as well as provide you with Quick Reference Guides* that contain more detailed instructions and helpful tips for working in an alternate location. When I started as the Acting Assistant Administrator for the Office of Environmental Information (OEI), I made the stability of EPA's network and improving remote access my highest priority. I am acutely aware of how these issues are affecting your ability to work. On behalf of OEI, I am sorry for the inconvenience this is causing and thank you for your patience.

There are a number of underlying causes associated with our degradation of service, beginning in May with an upgrade intended to provide greater capabilities while we were still trying to do some of the necessary foundational work to our network to support our new tool.

On June 25, 2013, OEI modified EPA's current [Remote Access Solution](#) with the intent of improving remote access to the Outlook Web App (OWA) from employees' personal computers. The intent of this change was to allow employees to access the full, enhanced version of OWA. However, we understand that this modification has caused some employees to either lose access to or experience difficulties with OWA.

To access OWA from your personal computer, we ask that you take the following steps:

- 1) Please go to <http://workplace.epa.gov> to log in. Please review the attached Quick Reference Guide, [Remote Access from your Personal Computer](#), to assist you in configuring your personal computer. Please note that this configuration does require you to **install software on your personal computer**. It also may require an upgrade of your Web browser and associated plug-ins, such as Java and/or ActiveX.
- 2) If the above solution does not work for you, please go to <https://workplaceproxy.epa.gov> to log in. We encourage you to access the 'OWA Late' version for the best functionality. If you experience any issues when trying to access 'OWA Lite' in this manner, please try using a different Web browser.

If you telework, please consider bringing your EPA-issued laptop with you, if that option is available. Use of your EPA-issued laptop provides full access to EPA resources and the

Microsoft Office client. To better assist you in using your EPA-issued laptop when working remotely, please review the attached Quick Reference Guide, *Tips and Tricks for Using your EPA-Provided Computer.*

I am committing to send out a follow-up message to all of you in late August to let you know of the plan and update you on our progress towards addressing these issues. I thank you for your continued patience and support as we work to improve our services.

***NOTE:** 508 compliant versions of these Quick Reference Guides will be posted to the My Workplace Project Page on Friday, August 2, 2013.

(See attached file: Tips_and_Tricks_EPA_Computer.pdf)(See attached file: Remote_Access_Personal_Computer.pdf)

Tips and Tricks for Working Remotely on your EPA-Issued Computer

The Office of Environmental Information (OEI) continues to work on Microsoft Office 365 remote access issues. When working remotely, OEI recommends using your EPA-issued laptop whenever possible, if that option is available to you. If you experience remote access problems while working remotely from your EPA laptop, the following tips and tricks may help resolve issues related to logging into Lync, opening Word attachments from Microsoft Outlook and clearing repeated pop-up windows to log in to Microsoft Exchange. Please note that these tips are intended for EPA-provided computers; they may or may not resolve problems on non-EPA-issued computers.

Notes

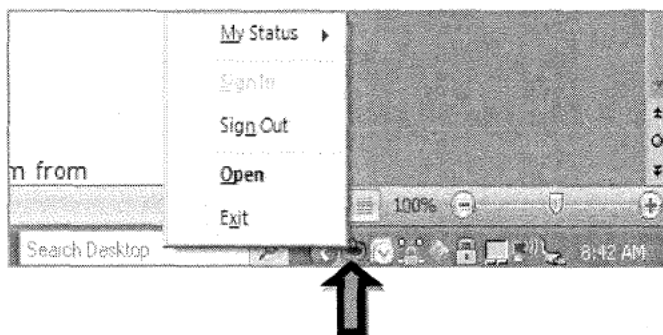

- After signing in to the EPA network from your EPA-issued laptop, we recommend using the Outlook client rather than the Outlook Web App in order to access the full features of Outlook. To access the Outlook client, simply click on the Outlook icon on your desktop as you normally would when working in the office.
- Before using your EPA-issued laptop remotely, please remember to register from inside an EPA facility by visiting <http://remoteregister.epa.gov/>. You only need to do this if you have not registered for remote access previously.
- This guide has been written based on Windows XP, as most EPA employees use Windows XP as their operating system. If you have been upgraded to Windows 7, you may see different results when following the tips and tricks.

Logging in to Lync

If you experience problems logging in to Lync remotely, complete the following steps.

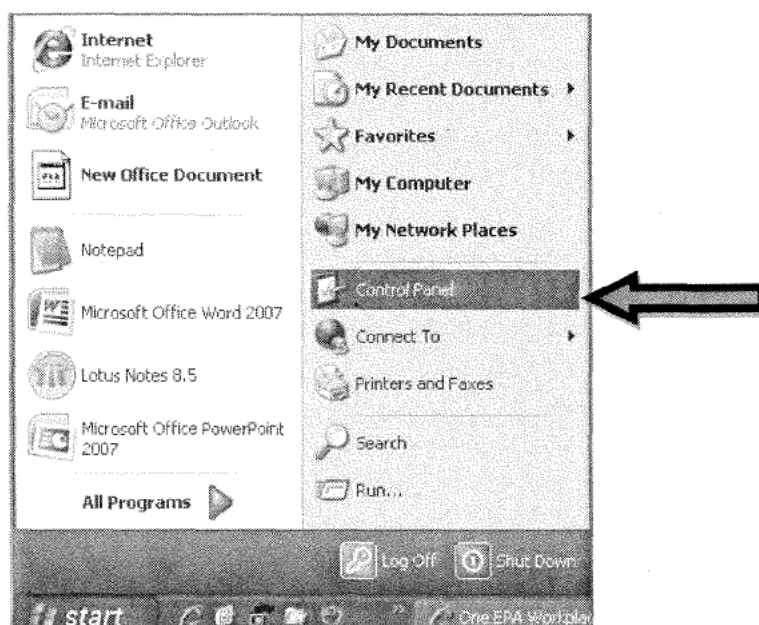

1. Ensure Lync is closed.
 - a. Right click on the Lync icon in the toolbar.
 - b. Click Exit (Figure 1).

Figure 1. Close Lync

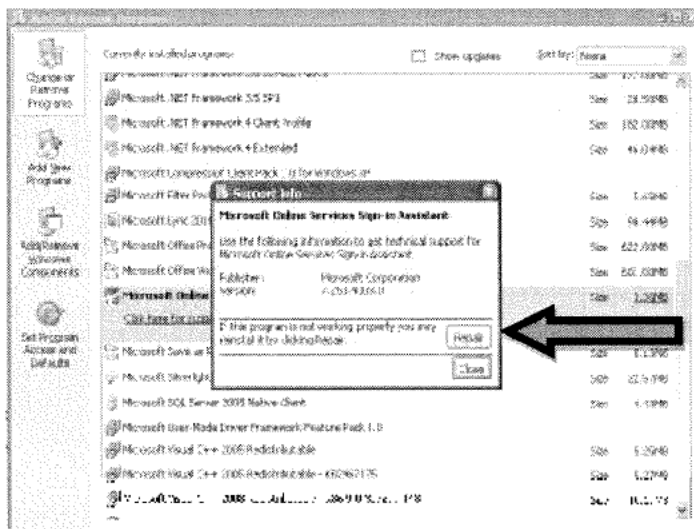

2. Click the **Start menu**.
3. Click **Control Panel** (Figure 2).

Figure 2. Control Panel

4. Click on **Add or Remove Programs**.
5. Click **Microsoft Online Services Sign-in Assistant**.
6. Click the **Click here for support information** option. A repair option will appear.
7. Click **Repair** (Figure 3).

Figure 3. Click Repair

8. Open Lync.

You should now be able to log into Lync successfully. If you continue to have problems, contact your local help desk.

Opening Word Attachments

If you experience problems opening Word documents from Microsoft Outlook while connected remotely, complete the following steps.

1. Save the attachment to your local computer.
2. Open Microsoft Word.
3. Open the desired file.

Consider using Sky Drive Pro to share files rather than Outlook. SkyDrive Pro is your personal library that allows you to store documents and files, and access them from anywhere. All your information is securely stored in the cloud and accessible by you and the people you choose. You can collaborate with others by inviting internal and external users to view and make changes to specific documents. SkyDrive Pro also allows you to organize your files into folders. Please note that each employee is allotted 7 GB of space in SkyDrive.

Password Pop-Ups

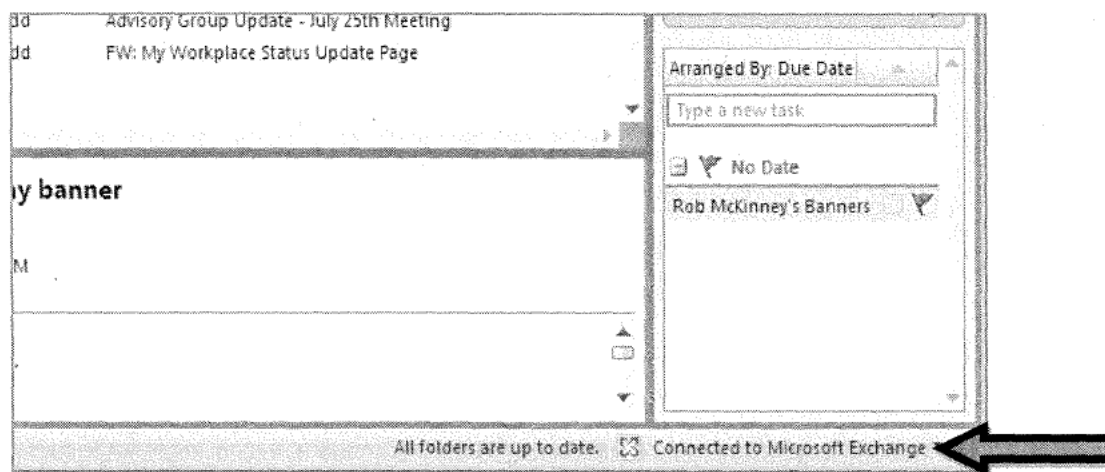

Some employees have reported receiving pop-ups (Figure 4) requesting they log in repeatedly while in the office or working remotely. Although a complete solution is under investigation, you can take some steps to reduce the pop-up's occurrence.

Figure 4. Log In Pop Up

1. Click **Cancel** instead of re-entering your password.
2. Ensure Microsoft Outlook indicates it is **Connected to Microsoft Exchange** in Outlook's lower-right corner (Figure 5). This confirmation indicates you are connected to the server and can send and receive messages despite cancelling the password request. If you see a message other than Connected to Microsoft Exchange, you will need to re-enter your password to reconnect.

Figure 5. Connected to Microsoft Exchange

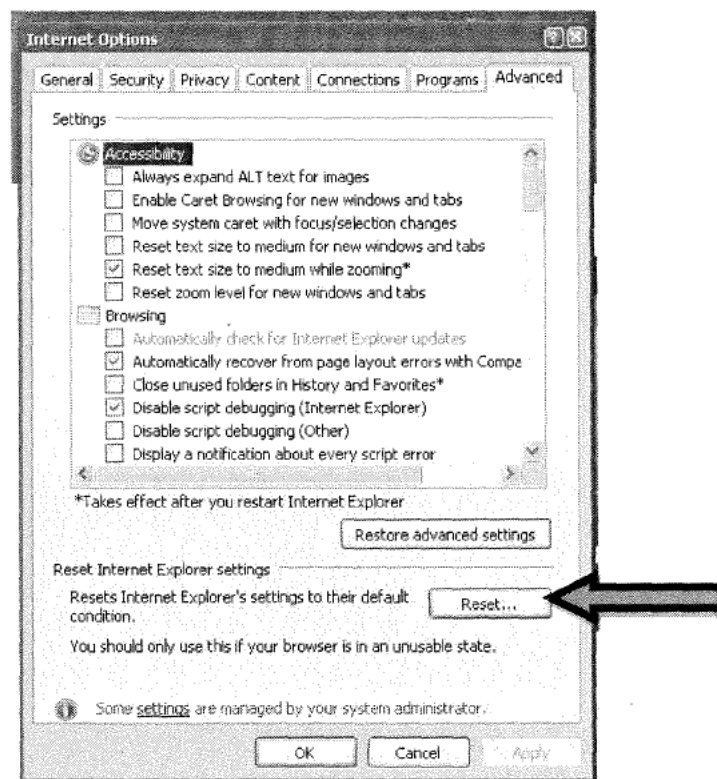

Opening the Outlook Web App (OWA)

If you are able to use OWA Lite remotely, but cannot use the full version of OWA and would like to, this tip may help.

Note: If you are connecting remotely via the Limited Remote Access Proxy, you will only be able to access OWA Lite, not the full version of OWA.

1. Click on **Tools** in Internet Explorer.
2. Choose **Internet Options**.
3. Click on the **Advanced** tab.
4. Click on the **Reset** button (Figure 6). This will reset all the default settings for Internet Explorer.

Figure 6. The reset button

5. Open OWA to confirm the problem has been resolved. If it was not, contact your local help desk for assistance.

This Email message contained an attachment named
image001.jpg
which may be a computer program. This attached computer program
could
contain a computer virus which could cause harm to EPA's
computers,
network, and data. The attachment has been deleted.

This was done to limit the distribution of computer viruses
introduced
into the EPA network. EPA is deleting all computer program
attachments
sent from the Internet into the agency via Email.

If the message sender is known and the attachment was legitimate,
you
should contact the sender and request that they rename the file
name
extension and resend the Email with the renamed attachment. After
receiving the revised Email, containing the renamed attachment,
you can
rename the file extension to its correct name.

For further information, please contact the EPA Call Center at
(866) 411-4EPA (4372). The TDD number is (866) 489-4900.

Dear Ms. Ebbert,

I realize it is rather short notice, but Summit Lake Paiute Tribal
Chairwoman Randi DeSoto could meet with Mr. Blumenfeld in
San Francisco on

Tuesday January 15. If that doesn't work, I look forward to
working with

you to arrange a mutually convenient time.

Sincerely,

Aaron Peskin

Hi Aaron -

I hope you had a good New Year's!

I am in receipt of the letter and agree it would make sense to have a

meeting with the Chair. Please can you work with Laura Ebbert to set up a

time that works for all. We can also do a call if in-person is tough to

organize.

Best, Jared

Dear Jared,

Happy New Year. Just checking to see if you are in receipt of Summit Lake

Paiute Tribe Chairwoman Randi DeSoto's letter regarding the on-going

financial matters with EPA? She would like to meet with you in an attempt

to resolve the matter. Please let me know if you have not

received the

letter which was supposed to have gone out a couple of weeks ago.

Best,

Aaron Peskin
